## About Techno India Group

Techno India Group (TIG), one of the largest knowledge management organisations in Eastern India, was established in 1985 providing education from PG to Ph.D through its various Schools, Engineering colleges & University.

### Techno India Group Public School (TIGPS) Raiganj

Techno India Group Public School, Raiganj in conformity with TIG's mission strives at the total development of students with special emphasis on intellectual and moral growth. It has successfully ignited young minds to the learning process. Our efforts are directed towards shaping the future of the education in a manner that makes the school education productive, joyous & enriching. TIGPS Raiganj follows CBSE curriculum and it is a co-educational School.

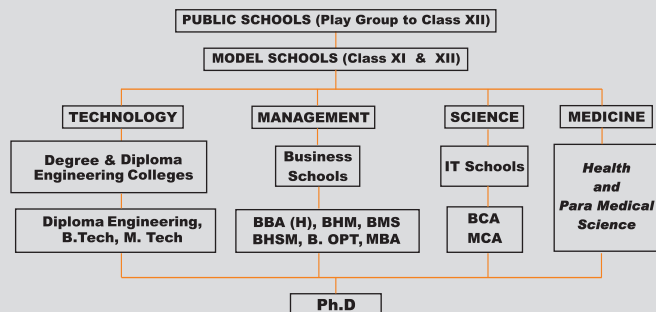

### Key Features of TIGPS Raiganj

- Well planned eco friendly campus.
- CBSE syllabus supplemented with creative inquiry based learning methodology.
- Ideal teacher-student ratio.
- Participation - Learning by doing for a child to learn through hands on experience.
- Run on systems and documentation.
- Highly qualified faculty members undergo periodic training programs by established experts to make teaching methods more meaningful.
- Monthly Parent-Teacher interaction is held every month to discuss academic and related issues.
- Students are graded based on skills through ongoing assessments.
